# Preface

---

The majority of texts in this reader have been collected from different Somali school books published since the beginning of the 1970's until today, in Mogadishu and Hargeysa, as well as in Ethiopia. Where necessary, some of the texts have been slightly adapted (orthographically standardised, grammatically or factually corrected, lexically or syntactically simplified etc.), and most of the texts have been tone-marked.

The dialogues were originally published in a textbook called *Beginning in Somali*, written before the introduction of Somali as the official language of Somalia. Since no official orthography had then been agreed upon, the textbook was written in a unique phonetic script. Therefore, with the kind encouragement of Richard D. Molitor, one of the original authors, the dialogues have been transcribed in today's standard Somali orthography.

Many of the original publications can be retrieved from [Archivio Somalia](#):

# Sound Recordings & Tone Marked Texts

---

Most of the texts in this reader have been recorded, many of them by two different speakers. All the recordings and tone marked versions of the texts, following the pronunciation of each individual speaker, can be found at <https://canvas.gu.se/courses/26872/modules/items/455523>

## Speakers

---

1 / B1	man from Beledweyne
2 / M2	man from Mogadishu
3 / M3	man from Mogadishu
4 / K4	man from Kismaayo
5 / H5	man from Hargeisa

## Symbols

---

The tone marking reflects the way the speakers pronounce the texts in the individual recordings. There will often be alternative ways of pronouncing the same words or phrases.

á	an accent marks high tone
á̄	two accents mark exceptionally high tone
ā	a bar marks reduced, less prominent high tone
á'	an accent after a word indicates phrase final rising tone
aaaa	four vowels indicate an excessively long vowel
?	a small question mark indicates a suspected slip of the tongue
/	a slanted line indicates a noticeable pause
